\*A client's encounter with a provider, as reflected in Medicaid claims, was designated as a visit if the provider billed one or more units of service on a single day. Multiple units of service and multiple types of encounters (Community Health Nursing Visit, Nutrition Visit, Psychosocial Visit, or Community Health Worker Visit) were counted as one visit if they occurred on the same day and were billed on the same claim. MSS figures are based on visits through the second postpartum month.
